

We **envision** a sustainable reality where historically marginalized communities lead in climate resilience, well-being, and wealth.

Our **mission** is to repair systemic injustices through decarbonization projects.

Through our programs, we aim to **decrease harmful greenhouse gas emissions** and...

increase quality of life indicators for communities that have historically been excluded from opportunity.

WHY: Our work aims to ensure the transition to a clean energy economy repairs systemic injustices.

HOW: Our programs increase public awareness about climate justice and remove barriers to opportunities.

WHAT: We advance our mission by delivering programs in the areas of **education** and **access**.

- Our engaging and high-quality **EDUCATION** programs focus on what *can* be done rather than what cannot. They include Carbon Literacy certificates, Climate Fresk workshops, & custom climate leadership professional development.
- The Climate Concierge is our signature **ACCESS** program. It will be available on an income-based fee scale to speed the pace of home electrification and provide services at no cost to income-qualifying San Diegans.

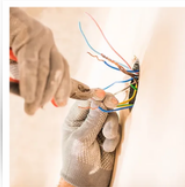

CARBON LITERACY CERTIFICATES

Accredited by the award-winning Carbon Literacy Project, our certificate prepares San Diegans for ambitious climate action.

CLIMATE FRESK WORKSHOPS

Climate Fresks are free community workshops that engage participants in the serious subject of climate change in a fun and collaborative way.

CLIMATE CONCIERGE

The Climate Concierge program is a comprehensive project management service that helps low-income San Diegans take advantage of the financial, health, and climate benefits of home electrification.

PARTNERING FOR CLIMATE JUSTICE

In Good Company is a nonprofit, tax-exempt public benefit corporation (tax ID: 92-0672083) under Section 501(c)(3) of the Internal Revenue Code. Donations are tax-deductible as allowed by law.
